CULTURAL-SCIENTIFIC PROGRAM

CONSERVATIVE DENTISTRY

Scientific organizations:
AIC - Italian Academy of Conservative Dentistry
SIDOC - Italian Society of Conservative Dentistry

FRIDAY, 15TH MAY | 10:00 AM - 1:25 PM
ROOM BRUNELLESCHI (PAV. C4)

NEW PROSPECTS IN CONSERVATIVE THERAPY

Scientific Director: *Vincenzo Tosco*

Program:

10:00 - 10:10 am | Introduction and greetings

10:10 - 10:55 am
Partial adhesive restorations: Clinical indications and operational strategies - *Federico Del Bianco*

10:55 - 11:40 am
Tooth wear: Criteria for clinical management
Riccardo Monterubbianesi

11:40 am - 12:25 pm
Restorative dentistry: Paradigms for better prognoses
Flavio De Fulvio

12:25 - 1:10 pm
Vital pulp therapy: New strategies in restorative dentistry
Vincenzo Tosco

1:10 - 1:25 pm | Discussion

ENDODONTICS

Scientific organization:
AIE - Italian Academy of Endodontics
SIE - Italian Society of Endodontics

FRIDAY, 15TH MAY | 2:15 - 5:30 PM
ROOM BRUNELLESCHI (PAV. C4)

WHERE DENTAL EXCELLENCE IS BORN. CHALLENGES AND OPPORTUNITIES OF FIRST-CLASS ENDODONTICS

Coordinators: *Raffaella Castagnola* (AIE), *Umbero Uccioli* (SIE)

Program:

2:15 - 2:30 pm | Introduction by the event coordinators

2:30 - 3:10 pm
Root canal treatments: Precision and strategies for predictable preparations - *Dario Re Cecconi*

3:10 - 3:50 pm
Irrigation as the key to successful endodontics: From science to clinics - *Giammarco Baruzzi*

3:50 - 4:30 pm
Endodontic retreatments: How to turn something hard into something easy - *Gabriele Ragucci*

4:30 - 5:10 pm
Stressless endodontics: Simplification to achieve first-class results - *Eugenio Pedullà*

5:10 - 5:30 pm | Discussion

DENTAL AESTHETICS

Scientific organizations:
COI-AIOG - Italian Odontostomatological Society
SIOCMF - Italian Society of Odontostomatology and Maxillofacial Surgery
AISO - Italian Association of Dentistry Students

FRIDAY, 15TH MAY | 10:00 AM - 1:30 PM
ROOM LEONARDO (PAV. C2)

INTEGRATING FUNCTION AND AESTHETICS IN PRECISION ODONTOSTOMATOLOGY

Scientific Director: *Maria Grazia Cannarozzo*
Moderators: *Maria Grazia Cannarozzo, Giuseppe Lo Giudice, Raffaele Vinci*

Program:

10:00 - 10:15 am | Greetings from the Presidents: *Roberto Di Lenarda, Maria Grazia Cannarozzo, Alice Fumei*

10:15 - 10:45 am
Oral surgery and implantology in the third millennium: Evolution, innovation, and prospects - *Raffaele Vinci*

10:45 - 11:15 am
The beautiful and the right: Ethics of aesthetic medicine in odontostomatology - *Cinzia Forestiero*

11:15 - 11:45 am
Digital workflows in oral surgery: From data acquisition to GUIDED surgery - *Pierantonio Bellini*

11:45 am - 12:15 pm
Digital planning in dentistry: Diagnosis, planning, and software-guided treatment - *Michele Manacorda*

12:15 - 12:35 pm
Digital implantology: Integrating workflows for predictable surgery - *Gian Luca Pancrazi*

12:35 - 1:00 pm
Digital smile design in implant-prosthetic rehabilitations
Anna Epifani

1:00 - 1:30 pm
Precision in maxillofacial surgical therapies
Giorgio Lo Giudice

Scientific organization:
IAED - Italian Academy of Esthetic Dentistry

FRIDAY, 15TH MAY | 3:00 - 6:00 PM
ROOM GOLGI (PAV. A4)

SMILE AND FACIAL AESTHETICS

Scientific Director: *Roberto Rossi*

Program:

3:00 - 3:40 pm
Integrating aesthetic medicine and dentistry: New prospects for smile aesthetics - *Camilla Molinari*

3:40 - 4:20 pm
Veneers, crowns, implants: How to manage soft tissues when treating aesthetically relevant areas
Riccardo Perpetuini

4:20 - 5:00 pm
Functional aesthetics - *Giovanni Faccin*

5:00 - 5:40 pm
Prosthetic planning for predictable aesthetic results
Pompeo Di Geronimo

5:40 - 6:00 pm | Discussion

FRAIL PATIENTS

Scientific organization:
SIOH - Society of Odontostomatology for Disability

SATURDAY, 16TH MAY | 10:00 AM - 1:20 PM
ROOM GOLGI (PAV. A4)

UNITED BY FRAILTIES: SPECIAL NEEDS DENTISTRY BECOMES A MEETING OPPORTUNITY

Scientific Director: *Paolo Ottolina*
Moderators: *Paolo Ottolina, Marco Magi*

Program:

10:00 - 10:20 am | Welcome speech by local authorities and Introduction to the Conference

10:20 - 10:50 am
Prostheses for frail patients: Planning and management
Christian Barbieri

10:50 - 11:20 am
Pediatric dentistry: Treatments and care pathways for special needs patients - *Veronica Vannucci, Cristina Villanacci, Giorgia Ferrari, Pamela Armi*

11:20 - 11:35 am | Discussion

11:35 am - 12:05 pm
Prosthetic rehabilitations for patients with disabilities: Clinical cases - *Federica Bonatesta, Cristian Quarta, Raffaele Piccinonno*

12:05 - 12:35 pm
Beyond single disciplines: An integrated surgical and diagnostic approach in operating rooms for patients with Cornelia de Lange syndrome - *Andrea Di Francesco, Andrea Cartocci, Andrea Alain Orsina, Valeria Torchia*

12:35 - 1:05 pm
Effective Prevention: Devices and best practices for Special needs dentistry - *Kristine Alati, Emanuele Colzani*

1:05 - 1:20 pm | Discussion

GNATHOLOGY

Scientific organization:
AIGeDO - Italian Association of Gnathology and Orofacial Pain

FRIDAY, 15TH MAY | 10:15 AM - 1:30 PM
ROOM DIOTALLEVI 2 (HALL SUD)

REHABILITATIONS AND DYSFUNCTIONS: WHAT TO DO AND NOT TO DO

Scientific Director: *Andrea Deregibus*

Program:

10:15 - 10:30 am
Greetings and introduction to the conference

10:30 - 11:20 am
From the first appointment to therapy: Food for thought
Francesco Ravasini

11:20 am - 12:10 pm
Balancing occlusion, clinical, and instrumental tips and tricks - *Alessandro Nanussi*

12:10 - 1:00 pm
Bite adjustment and coronoplasty to balance occlusions: What to avoid - *Andrea Gizdulich*

1:00 - 1:30 pm | Discussion

IMPLANTOLOGY

Scientific organization:
IAO - Italian Academy of Osseointegration

FRIDAY, 15TH MAY | 10:00 AM - 6:30 PM
ROOM NERI 1 (HALL SUD)

DATA-DRIVEN IMPLANTOLOGY: FROM AI TO SUCCESS

Matteo Cordaro

LASER

Scientific organizations:
AIOLA - International Academy of Laser-Assisted Odontostomatology
ANTECH - Academy of Neoregenerative Therapies and Hemo-Components
SILO - Italian Society of Laser in Oral Medicine

FRIDAY, 15TH MAY | 2:15 - 5:45 PM
ROOM DIOTALLEVI 2 (HALL SUD)

LASER EVIDENCE 2026: BUILDING STANDARDS, SHARING THE FUTURE

Scientific Director: *Alessandro Del Vecchio*

Program:

1st Session

Chaired by: *Alessandro Del Vecchio, Maurizio Maggioni, Carmen Mortellaro*

2:30 - 3:00 pm
Photobiomodulation and cytomorphological considerations - *Francesco Spadari*

3:00 - 3:30 pm
Advanced technologies for periodontology: Clinical synergy between doctors and dental hygienists
Anna Antonacci, Giuseppe D'Albis

3:30 - 3:55 pm
Biorevitalization with hemocomponents for facial aesthetics - *Gennaro Falivene*

3:55 - 4:15 pm | Discussion on the topics of the 1st session

2nd Session

Chaired by: *Saverio Capodiferro, Giovanni Maria Gaeta, Paolo Vescovi*

4:15 - 4:35 pm
Diode lasers for orthodontics: Evidence-based clinical applications - *Elena Grecolini*

4:35 - 4:55 pm
Laser biopsy and histopathology - *Sabrina Darwish*

4:55 - 5:20 pm
Reticulated hyaluronic acid in periodontology and oral surgery - *Ilaria Giovannacci*

5:20 - 5:30 pm | Discussion on the topics of the 2nd session

5:30 - 5:45 pm | Closing remarks

MEDICINE

Scientific organizations:
SIdCO - Italian Society of Dental and Oral Surgery
SIOCMF - Italian Society of Odontostomatology and Maxillofacial Surgery
In collaboration with SIM, Italian Society of Microbiology

SATURDAY, 16TH MAY | 10:00 AM - 12:30 PM
ROOM BRUNELLESCHI (PAV. C4)

FEWER PRESCRIPTIONS, BETTER PRESCRIPTIONS: A REASONED, REASONABLE GUIDE TO THE USE OF ANTIBIOTICS IN DENTISTRY

Moderator: *Pierantonio Bellini*

Program:

10:00 - 10:15 am
Introduction - *Roberto Di Lenarda*

10:15 - 10:35 am
The Pharmacologist's Perspective - *Danilo De Gregorio*

10:35 - 10:55 am
The Microbiologist's Perspective - *Tommaso Giani*

10:55 - 11:25 am
Presentation of "The Thoughtful and Reasonable Guide to the Use of Antibiotics in Dentistry", developed by SIOCMF, SIdCO, and SIM - *Antonio Rapani*

11:25 - 11:45 am
Insights on implant therapy, extraction therapy, and management of at-risk patients
Pierantonio Bellini, Antonio Rapani

11:45 am - 12:30 pm | Discussion

ORAL PATHOLOGY

Scientific organization:
SIPMO - Italian Society of Oral Pathology and Medicine

SATURDAY, 16TH MAY | 10:00 AM - 1:00 PM
ROOM DIOTALLEVI 1 (HALL SUD)

ORAL MEDICINE IN DAILY PRACTICE: WHAT TO OBSERVE, WHAT TO TREAT, WHEN TO REFER

Chaired by: *Umberto Romeo*
Moderator: *Andrea Santarelli, Paolo Vescovi, Carlo Lajolo*

Program:

10:00 - 10:20 am | Introduction to the conference
Oral medicine as decision-making support in a dentist's practice - *Andrea Santarelli*

10:20 - 10:40 am
Oral cancer: How to detect it early and avoid late diagnoses - *Silvio Abati*

10:40 - 11:00 am
White and red lesions: When should you really worry?
Umberto Romeo

11:00 - 11:20 am
Oral infections: When should you worry and how should you treat late diagnoses in your practice? - *Carlo Lajolo*

11:20 - 11:40 am
When and how should you request a medical examination? Lab tests in a dentist's practice
Marco Mascitti, Paolo Staffinati

11:40 am - 12:00 pm
Systemic drugs: When our mouths turn into wake-up calls
Giuseppina Campisi, Martina Coppini

12:00 - 12:20 pm
Oral cancer: Shared responsibility and managing suspicious cases - *Lorenzo Lo Muzio, Gennaro Musella*

12:20 - 12:40 pm
Biopsy or referral? Recommendations and limitations in a dentist's practice - *Paolo Vescovi*

12:40 - 1:00 pm | Key takeaways

ORAL SURGERY/PIEZOELECTRIC SURGERY

Scientific organizations:
IPA - International Piezoelectric Surgery Academy
SIdCO - Italian Society of Dental and Oral Surgery

FRIDAY, 15TH MAY | 2:30 - 5:30 PM
ROOM RAVEZZI 2 (HALL SUD)

MAINTAINING PERI-IMPLANT BONE STABILITY: BIOLOGICAL MECHANISMS AND CLINICAL IMPLICATIONS

Scientific Director: *Claudio Stacchi*
Chaired by: *Stefano A. Salgarello, Claudio Stacchi*

Program:

2:30 - 3:00 pm
Implant-abutment connections and peri-implant marginal bone stability - *Alessandro Antonelli*

3:00 - 3:30 pm
How surgical factors impact peri-implant bone stability
Teresa Lombardi

3:30 - 4:00 pm
The effects of prosthetic procedures and choices on peri-implant marginal bone stability - *Antonio Rapani*

4:00 - 4:30 pm
How age, comorbidities, smoking, and pharmaceutical drugs affect peri-implant bone stability
Gianmario Schierano

4:30 - 5:30 pm
Roundtable: Maintaining peri-implant bone stability: Biological mechanisms and clinical implications
Alessandro Antonelli, Teresa Lombardi, Antonio Rapani, Gianmario Schierano

Scientific organization:
IPA - International Piezoelectric Surgery Academy

SATURDAY, 16TH MAY | 10:00 AM - 2:00 PM
ROOM DIOTALLEVI 2 (HALL SUD)

IPA SYMPOSIUM - MAXILLARY SINUS LIFT WITH A CRESTAL APPROACH: EVIDENCE-BASED SELECTION CRITERIA, SURGICAL TECHNIQUES, AND COMPLICATIONS

Scientific Director: *Stefano A. Salgarello*
Chaired by: *Teresa Lombardi, Stefano A. Salgarello*

Program:

10:00 - 11:30 am
Surgical techniques and biomaterials for maxillary sinus lift - *Fabio Bernardello*

11:30 am - 12:30 pm
Selection criteria for maxillary sinus lift with a crestal approach - *Sergio Spinato*

12:30 - 1:30 pm
How to prevent and manage complications of maxillary sinus lift with a crestal approach - *Claudio Stacchi*

1:30 - 2:00 pm | Discussion

ORTHODONTICS

Scientific organization:
SIDO - Italian Society of Orthodontics

FRIDAY, 15TH MAY | 10:00 AM - 1:00 PM
ROOM GOLGI (PAV. A4)

FROM DIAGNOSES TO THERAPEUTIC PLANS: LATEST DEVELOPMENTS AND CLINICAL STRATEGIES

Scientific Director: *Daniela Garbo*

Program:

10:00 - 10:40 am
AI in Orthodontics: New tools for orthodontic diagnosis and planning - *Simone Muraglie*

10:40 - 11:20 am
From Diagnosis to Motivation: The New Paradigm of Digital Orthodontics - *Ludovica Nucci*

11:20 am - 12:00 pm
Artificial intelligence in orthodontics: New prospects for the assessment of skeletal growth - *Lucia Pozzan*

12:00 - 12:40 pm
Innovation protocols and clinical strategies in contemporary orthodontics: Diagnoses, treatment plans and new solutions with hybrid systems - *Daniel Celli*

12:40 - 1:00 pm | Discussion

EXPO3D

Scientific Directors: *Davis Cussotto, Gabriele Boero*

EXPO3D is an exhibition that showcases Italy's digital dental best practices, where dentists and dental technicians run live demonstrations on top-level treatments in restorative dentistry, implantology, and orthodontics. As per tradition, it takes place during the three days of the EXPODENTAL Meeting in the very heart of the exhibition center (Pavilion C2), where clinical cases are illustrated using software programs and devices (scanners, printers, milling machines...) provided by the exhibitors.

Program:

THURSDAY, 14TH MAY

10:15 - 10:30 am
Presentation of the EXPO3D scientific program

10:30 - 11:30 am
Digital aesthetic previewing: Face scanners and Digital Smile Design - *Stefano Storelli*

11:45 am - 12:45 pm
Diagnosing and treating tooth wear
Emanuele Risciotti, Tommaso Risciotti

2:15 - 3:30 pm
Daily Digital Print: How 3D printing is changing restorative dentistry - *Sebastian Tansella*

3:45 - 5:00 pm
Orthodontist-Driven Software programs: From digital model analyses to fully digital orthodontic set-ups
Calogero Lacagnina

Friday, 15th May

10:00 - 11:15 am
Printing or milling? Here's my experience
Antonino Cacioppo

11:30 am - 12:45 pm
Implementing AI in today's dentistry - *Luigi Rubino*

1:30 - 2:30 pm
Full-arch, fully digital: VDO recording techniques
Michele Serri

2:45 - 4:00 pm
Efficient, affordable solutions for digital dentistry
Gennaro Ruggiero

4:15 - 5:15 pm
AI as a decision-making tool for a patient-centered relationship - *Barbara Sabiu*

5:30 - 6:30 pm
Using CAD for prosthetics - and much more
Luca Lepidi, Byung Chan Kim, Lorenzo Giberti

SATURDAY, 16TH MAY

10:00 - 11:00 am
New prospects in surgery and prosthetics: From 3D planning to the clinical phase - *Stefano Granata*

11:15 am - 12:15 pm
"At the heart of digital workflows": Protocols that breathe new life into everyday practice
Roberto Scrascia, Nicola Palladino

12:30 - 1:30 pm
Printing immediate provisional restorations
Camilla Gesso, Mattia Picasso

EXPO DENTAL LIVE ON STAGE

Tech Suppliers: Cefla, Crumer, Durr, G.Comm, Loran, NSK, Promed, Zilfor

LIVE HYGIENE (PAV. A3)

Content supplier: EMS

THURSDAY, 14TH MAY | 2:00 - 2:45 PM

LIVE GBT TREATMENT

» *Raffaele Muollo*

Discover how the Guided Biofilm Therapy protocol can make a difference in everyday oral prophylaxis! In this live demonstration, Dr. Raffaele Muollo, a certified SDA Trainer, will guide you through every stage of this treatment, highlighting how the 8 steps of GBT ensure effective and safe removal of bacterial biofilm.

The advanced use of AIRFLOW® MAX, AIRFLOW® powder and the PIEZON® PS instrument will ensure a gentle, minimally invasive approach, providing comfort for both patients and practitioners thanks to the PIEZON NO PAIN® MAX module. Don't miss the chance to witness the benefits of GBT in daily practice firsthand!

Content supplier: CEFLA

THURSDAY, 14TH MAY | 3:15 - 4:00 PM

PRÉIME DERMAFACIAL AND SKIN ANALYZER: FROM DIGITAL SKIN ANALYSES TO INTEGRATED AND SCALABLE AESTHETIC PROTOCOLS

» *Pamela Di Gennaro*

The evolution of aesthetic medicine calls for increasingly personalized approaches that can be integrated and sustained in everyday practice. Préime DermaFacial is a comprehensive ecosystem that combines advanced diagnostics with modular treatment protocols by means of a skin analyzer. Starting from an objective skin analysis, professionals can customize their treatments and integrate them seamlessly with existing aesthetic medicine procedures already offered in their practices. This system also enables scalable management of services, improving patient loyalty and the economic efficiency of these practices. A concrete opportunity to expand services in a structured, differentiated way.

Content supplier: NSK

FRIDAY, 15TH MAY | 12:15 - 1:00 PM

MIT PROTOCOL: GUIDED PERIODONTAL THERAPY, LIVE ON PATIENTS

» *Consuelo Sanavia*

During this live clinical session, the MIT protocol will be applied in the management of the periodontal patient, integrating the recommendations of EFP guidelines with the targeted use of NSK technologies. Through the use of Varios Combi Pro 2, powders and ultrasonic tips will be selected for each of the different operative phases. This will demonstrate how the choice of instruments influences the effectiveness, safety, and comfort of the treatment. This demonstration will help participants understand the clinical rationale behind each therapeutic decision, highlighting the active role of operators in non-surgical periodontal therapy.

Content supplier: ACTEON

FRIDAY, 15TH MAY | 1:45 - 2:30 PM

OPUS BY ACTEON: ADVANCED TECHNOLOGY IN PREPARATION FOR WHITENING TREATMENTS

» *Sara Citterio*

Based on the MINST protocol, this workshop explores the crucial role of professional dental hygiene in optimizing whitening results. Through the use of powders, it is possible to achieve effective, minimally invasive cleaning, improving the removal of biofilm and surface stains. This approach helps prepare patients, promoting a more uniform, longer-lasting outcome of whitening treatments. This session will provide practical and clinical guidance for integrating these techniques into professional practice.

Content supplier: MIROMED

FRIDAY, 15TH MAY | 4:30 - 5:15 PM

PERFORMING TEETH WHITENING IN YOUR PRACTICE OR AT HOME: CUSTOMIZED SYSTEMS FOR BOTH DENTISTS AND PATIENTS

» *Tatiana Giulia Rizzati, Arianna Iacone*

Today, teeth whitening is one of the most sought-after aesthetic treatments - therefore, a real growth opportunity for dental practices. This workshop will feature a live clinical demonstration of professional whitening for dental practices with the Genius system and will include explanations on how to perform personalized at-home whitening with the Tailor system. Also, you will be introduced to the new frontiers of this treatment and to the strategies aimed at effectively integrating it into your practice. A special focus will be placed on managing tooth sensitivity, too - both before and after whitening.

Content supplier: ACTEON

SATURDAY, 16TH MAY | 11:30 AM - 12:15 PM

OPUS BY ACTEON: ADVANCED TECHNOLOGY IN PREPARATION FOR WHITENING TREATMENTS

» *Sara Citterio*

Based on the MINST protocol, this workshop explores the crucial role of professional dental hygiene in optimizing whitening results. Through the use of powders, it is possible to achieve effective, minimally invasive cleaning, improving the removal of biofilm and surface stains. This approach helps prepare patients, promoting a more uniform, longer-lasting outcome of whitening treatments. This session will provide practical and clinical guidance for integrating these techniques into professional practice.

LIVE INJECTION (PAV. A3)

Content supplier: INTERNATIONAL MEDICAL ACADEMY DIOMED

THURSDAY, 14TH MAY | 12:00 - 1:00 PM

ADVANCED THREAD LIFTING: THE NON-SURGICAL LIFT THAT REDEFINES THE FACE

» *Olena Nazarko*

Advanced thread lifting with PDO threads is an increasingly relevant, minimally invasive procedure in facial aesthetic medicine, aimed at improving skin laxity and redefining facial volumes without the need for surgery. The effectiveness of this treatment is based on careful patient selection, a thorough understanding of the anatomy of suspension planes, and the proper use of lifting threads. During this live session, indications, vector planning, insertion techniques, and the management of the main critical issues will be illustrated, with the goal of achieving a natural, safe, harmonious result.

THURSDAY, 14TH MAY | 4:30 - 5:30 PM

PRACTICAL DEMONSTRATION ON A LIVE MODEL

» *Ezio Costa*

Content supplier: INTERNATIONAL MEDICAL ACADEMY DIOMED

FRIDAY, 15TH MAY | 10:30 - 11:30 AM

FULL FACE WITH LIVE RUSSIAN LIPS TECHNIQUE: STRATEGY, TECHNIQUE, AND RESULTS IN GLOBAL FACIAL HARMONIZATION

» *Olena Nazarko*

Full-face treatment is an advanced approach to facial aesthetic medicine, based on a global and integrated vision of proportions and volumes. In this context, the Russian Lips technique plays a strategic role in defining the lower third of the face, contributing to the overall balance of the profile. During this live session, clinical assessment, vector planning, and a selection of the most appropriate injection techniques will be illustrated, with a focus on safety, indications, and the management of potential

complications. The goal is to achieve a harmonious, natural, personalized result.

Content supplier: F.AESTHETIC

FRIDAY, 15TH MAY | 3:00 - 4:00 PM

AESTHETIC TREATMENTS OF THE PERIORAL REGION BY MEANS OF PUNTURINA FILLERS BY F.AESTHETIC

» *Benito Paolo Chiodo*

Contemporary smile aesthetics has transcended the boundaries of hard tissues and has expanded to the harmony of perioral soft tissues. This region, with its high muscular dynamics and complex vascularization, is clinically challenging when it comes to treating the signs of aging and morphological asymmetries. This presentation will analyze modern perioral aesthetic medicine protocols, assessing the effectiveness of hyaluronic acid (HA)-based fillers in restoring volume, contour definition, and deep tissue hydration. The aesthetic treatment of the perioral region by means of fillers is the natural complement to dental rehabilitation. When clinicians fully master all the injection techniques and have in-depth knowledge of the physical and chemical properties of the materials, they will be able to adopt a safe, minimally invasive "full-face" approach, thereby enhancing overall patient satisfaction.

FRIDAY, 15TH MAY | 5:45 - 6:45 PM

PRACTICAL DEMONSTRATION ON A LIVE MODEL

» *Adriano Bartoli*

LIVE SURGERY (HALL SUD)

Content supplier: ICLO

FRIDAY, 15TH MAY | 11:00 - 12:00 PM

LIVE FROM THE ICLO CENTER (SAN MARINO): SURGICAL ANATOMY ON ANATOMICAL SPECIMENS FOR ORAL, IMPLANT, AND REGENERATIVE SURGERY

» *Fabrizio Nicoletti, Leonardo Dassatti*

During this live session, the main clinically relevant regions will be illustrated by means of anatomical slides. A special focus will be placed on the relationships of these regions with vascular and nervous structures, on their implications for surgical procedures, and on both horizontal and vertical GBR in cases of severe bone atrophy. Knowledge of the vital anatomical structures is essential to plan and perform oral surgery, especially when it comes to extractive, implant, and regenerative surgery.

Content supplier: ADVAN

FRIDAY, 15TH MAY | 12:00 - 1:30 PM

ADVAN IMPLANTOLOGY: PRACTICAL AND PREDICTABLE APPLICATIONS OF THE GTB SYSTEM

» *Guerino Caso*

Native Zero Bone Loss, the GTB implant system stands out for its versatility, thanks to three implant morphologies that share the same system and prosthetic connection, thereby enabling an integrated workflow. The GTB implant line features an exclusive design, engineered and patented to ensure high primary stability and excellent aesthetics for all bone types. Choosing a GTB dental implant means choosing innovation, safety, and predictable results. The ATiM protocol supports both implantologists and prosthodontists, allowing clinical cases to be managed in a simple, reliable way, even in the most complex anatomical conditions.

Content supplier: ALPHABIO TEC

FRIDAY, 15TH MAY | 3:00 - 4:30 PM

REMASTERING THE ART OF IMPLANTOLOGY: NEW HORIZONS IN AESTHETICS FOR BETTER MANAGEMENT OF HARD AND SOFT TISSUES WITH THE ALPHAARCH PROTOCOL

» *Antonio Magliano, Raffaele Papa*

Rehabilitation of partially edentulous patients with severe atrophy is still a demanding clinical challenge, particularly in elderly individuals with systemic conditions.
Multineo Nina is the evolution of full/partial-arch rehabilitation concepts. With its hydrophilic surface combined with Alpha-Arch protocol, it improves implant distribution and biomechanical stability. It also minimizes surgical Invasiveness, thereby enhancing aesthetic tissue management.

Content supplier: SPRINTRAY

FRIDAY, 15TH MAY | 5:30 - 7:00 PM

A CHAIR-SIDE CLINICAL CASE BY MEANS OF MIDAS: CLINICAL MANAGEMENT UP UNTIL CEMENTATION

» *Giovanni Ioime*

The chair-side approach allows for the creation of indirect restorations in a single appointment, improving clinical efficiency and patient comfort. This clinical case will illustrate the operational management of a restoration created by means of the Midas system and will include a description of the digital workflow up to adhesive cementation. The protocol that will be adopted is simple, precise, and predictable, confirming the effectiveness of the Midas system in supporting an optimized clinical workflow and in providing reliable functional-aesthetic results.

Content supplier: BIOTEC SRL - BTK

SATURDAY, 16TH MAY | 10:00 AM - 12:30 PM

PHASE TWO OF 3D BONE REGENERATION: COMPUTER-GUIDED SURGERY AND CONNECTIVE GRAFTS

» *Alessandro Cucchi, Andrea Salmaso*

This event will present Phase II of a 3D bone regeneration treatment performed by means of a customized titanium mesh placed 9 months prior. This procedure will begin with a brief re-live of the key moments from Phase I, highlighting the surgical details that contribute to the success of this regenerative surgery. A live surgery operation will follow: it will include a reopening of the regenerated site, a mesh removal, and an implant placement by means of computer-guided surgery. Finally, mucogingival surgery will be performed: connective tissue will be harvested and grafted to improve the density and volume of the peri-implant tissues.

EXPODENTAL RDH

BEYOND THE SURFACE. STRUCTURES, RELATIONSHIPS, AND APPROACHES TO THE ORAL CAVITY

Scientific Directors: *Alice Alberta Cittone, Riccardo Sangermano*

Within Expodental Meeting - the birthplace of dental best practices - Expodental RDH is the place to be for dental hygienists who wish to learn new things, exchange ideas, and grow. As the clinical world is constantly evolving, it is the speakers - all dental hygienists - who share insights and clinical cases from their professional experiences to address multiple challenges - from tissue biology to aesthetics, from prevention to professional communication. Three thematic sessions and one integrated perspective: looking beyond the surface to become informed and experienced key players in the present and future of oral health.

THURSDAY, 14TH MAY | 2:45 - 4:45 PM
ROOM VOLTA (PAV. A3)

Session 1

THE STRUCTURE, SCOPE, AND STRONG POINTS OF ENAMEL

The tooth surface is just the beginning. In this session, speakers explore the anatomical, functional, and aesthetic aspects of enamel, addressing topics such as remineralization, lesions, whitening, and innovations in prevention and treatment protocols. A clinical and scientific approach where aesthetics is seen as a sign of health.

2:45 pm
Molar Incisor Hypomineralization (MIH): An update on its causes and new therapeutic perspectives
Consuelo Sanavia

3:15 pm
Teeth whitening for patients with fluorosis and tetracyclines: Clinical approaches and tangible results
Eva Andreini

3:45 pm
Resin Infiltration and enamel alterations - *Daniele Modesti*

4:15 pm
Clinical and lab biomarkers as a tool for studying enamel during orthodontic treatments - *Andrea Butera*

FRIDAY, 15TH MAY | 10:00 AM - 12:00 PM

Session 2

PERIODONTOLOGY IN PRACTICE: CASES, TREATMENTS, CONTINUITY

From screening to maintenance, each patient's clinical history is made up of details, decisions, and results. In this session, speakers share cases where gingival, periodontal, and peri-implant diseases were successfully treated, illustrating diagnostic procedures, non-surgical therapeutic approaches, as well as personalized strategies to tackle such diseases.
This focus on everyday clinical practice combines scientific evidence with field experience.

10:00 am
Non-surgical periodontal therapies to determine RBL and CAL: When should we resort to them? Let's unleash our potential! - *Marco Lattari, Simone Roatti*

10:45 am
Smile aesthetics and periodontal health: a crucial combination - *Ilaria Valentini*

11:10 am
Treating recessions with non-surgical therapies
Cosimo Prete

11:35 am
Non-surgical therapies: When biofilm detection and patient collaboration go hand in hand - *Carlotta Becciani*

FRIDAY, 15TH MAY | 2:30 - 4:30 PM

Session 3

THE HUMAN SIDE OF OUR PROFESSION: SKILLS FOR STRONGER CONNECTIONS

Empathy, communication, and professional expertise: oral health is not just about protocols - it's also about dialogue. This session addresses the approaches to vulnerable or difficult patients, effective communication, and collaboration with the teams and employers - an opportunity for us to rethink the relational and strategic value of today's dental hygienists.

2:30 pm
Plate detectors: From the clinic to the patient-doctor relationship - *Tatiana Giulia Rizzati*

3:10 pm
Patient-doctor relationship: A Dental Hygienist's invisible tool - *Elena Bizzotto*

3:50 pm
Looking for a dental hygienist? What you need to do for a successful job interview - *Giulia Sabatino*

SATURDAY, 16TH MAY | 10:00 - 11:00 AM
ROOM LIVE INJECTION (PAV. A3)

Grazia Merla Award for the Best Dissertation

AWARD CEREMONY FOR THE PARTICIPANTS AND WINNERS OF THE "Grazia Merla Award for Best Dissertation"

Scientific organizations:
AIDI - Italian Dental Hygienists' Associations
ATASIO - Academy of Advanced Technologies in Oral Hygiene Sciences
IL CHIRONE - Academy of Studies and Research in Odontostomatology and Odontostomatological Prevention
SISIO - Society of Oral Hygiene Sciences
UNID - Italian Union of Dental Hygienists

SATURDAY, 16TH MAY | 10:00 AM - 1:30 PM
ROOM VOLTA (PAV. A3)

ORAL HEALTH AND EVOLVING PREVENTION GUIDELINES: THE IMPACT OF NEW TECHNOLOGIES ON CUSTOMIZED TREATMENTS FOR PATIENTS

In recent years, oral prevention has dramatically evolved - going from a standardized approach to an increasingly customized, predictive, evidence-based model. Dental hygienists have played a pivotal role in this change thanks to their ability to integrate clinical skills, risk assessment, and new technologies.
Today, more effective and targeted management of oral health is possible, thanks to advanced diagnostic tools, biofilm monitoring systems, technologies for patient motivation and education, as well as preventive protocols tailored to individual risk profiles. Operational strategies to improve patient adherence, optimize clinical outcomes, and promote truly personalized prevention will be explored in depth.

Scientific Director: *Gianna Maria Nardi*

Program:

10:00 - 10:15 am
Greetings and introduction to the conference
Moderators: *Matteo Castaldi, Michela Antonioni, Isabella Fabiani*

10:15 - 10:45 am
Oral health, technological innovations, and customized home-based and professional operating protocols
Gianna Maria Nardi

10:45 - 11:15 am
Innovation in customized chemical monitoring of oral inflammations - *Silvia Cotellessa*

11:15 - 11:45 am
From biofilm to peri-implantitis: The key role of technologies in implant maintenance
Alessandro Chiesa

11:45 am - 12:15 pm
Innovative technologies for early detection of mucosa-related pathologies
Antonella Abbinante, Maria Teresa Agneta

12:15 - 12:45 pm
The evolution of laser-assisted dental prevention protocols - *Salvatore Russo*

12:45 - 1:15 pm
Taking care of ourselves: The key to successful, high-quality assistance - *Giulia Fantozzi, Chiara Saracino*

1:15 - 1:30 pm | Final discussion

MEDAESTHETICA

AESTHETIC MEDICINE IN DENTISTRY

Scientific Director: *Antonio Guida*
Scientific organization:
SIMEO - Italian Association of Dental Esthetic Medicine

ROOM GALILEO (PAV. A2) (WITH AUDIO AND VIDEO CONNECTION TO THE "LIVE ON STAGE" ROOM)

ROOM LIVE HYGIENE/INJECTION (PAV. A3)

Program:

THURSDAY, 14TH MAY

10:00 am - 12:00 pm
Regulatory, fiscal, and medical-legal aspects of the practical sides of facial aesthetic medicine in dental practices. An overview of instrumental and injective aesthetic therapies that can be performed in dental practices - *Antonio Guida*

12:00 - 1:30 pm
Your first aesthetic medicine appointment: Psychological assessments, phototypes, biotypes, medical records, clinical photography - *Federica Valdinucci*

2:00 - 4:30 pm
Instructions on how to use fillers and biostimulants
Ezio Costa

4:30 -5:30 pm | LIVE INJECTION
Practical demonstration on a live model
Ezio Costa

FRIDAY, 15TH MAY

10:00 am - 2:00 pm
Proper cosmetological and cosmeceutical prescriptions in aesthetic medicine - *Gloriana Assalti*

3:00 - 4:00 pm | LIVE INJECTION
Aesthetic treatments of the perioral area with dermal fillers - *Benito Paolo Chiodo*

4:00 - 5:45 pm
Using the botulinum toxin for aesthetic and therapeutic purposes in dental practices - *Adriano Bartoli*

5:45 - 6:45 pm | LIVE INJECTION
Practical demonstration on a live model
Adriano Bartoli

SATURDAY, 16TH MAY

10:00 am - 12:00 pm
How to implement facial aesthetic medicine in your dental practice: Examples of effective ethical strategies
Giusy Ciani, Adriano Bartoli

TECNODENTAL FORUM

TECNODENTAL FORUM PAV. C3

Scientific Director: *Oliviero Turillazzi*
Organizer: UNIDI - Italian Dental Industries Association

GIANCARLO BARDUCCI ROOM

THURSDAY, 14TH MAY

THESE EVENTS ARE ORGANIZED FOR SCHOOLS OF PROSTHODONTICS

2:30 pm
Digital workflows for full dentures: Milling and printing
Davide Nadalini

3:15 pm
Using digital workflows with complex implant prostheses
Paolo Venturini

4:00 pm
Aesthetic solutions with integral ceramics
Gianfranco Ferrari

FRIDAY, 15TH MAY, MORNING

ONE SCHOOL - THREE MASTERS

Chairman: Marco Bordoni

10:10 am
Aesthetic integration for prostheses: Combining technology and biology - *Antonello Di Felice*

11:00 am
Color digital assessment in everyday aesthetic practice
Marco Cossu

11:50 am
Digital production: Do we still need specialized knowledge and manual skills? - *Alwin Schonenberger*

FRIDAY, 15TH MAY, AFTERNOON

THE LATEST INNOVATIONS IN PROSTHETICS: FROM FIXED TO REMOVABLE

Chairmen: Paolo Mola, Fausto Bruschi

2:00 pm
Additive rehabilitations, composite, and myths to demystify - *Leonardo Colella*

2:40 pm
Zirconia liquid layering - *Giuseppe Leonetti*

3:20 pm
Full-mouth rehabilitations: Tissue management, occlusion, and clinic-laboratory data transfer in digital/analog workflows - *Loris Prosper, Luigi Maddaluno*

4:10 pm
Full dentures: Analogical vs digital approaches
Alberto Olivieri

4:30 pm
From scanning to the patients' smiles: Digital workflows for full removable dentures and prospects
Lucio Lo Russo

5:20 pm
Digital workflows for full dentures: Instructions, advantages, limits - *Alessio Casucci*

SATURDAY, 16TH MAY

NO PREPARATION? MINIMAL PREPARATION? MAYBE PREPARATION?

Chairman: Moreno Fiora

10:10 am
Exchanging data between dental practices and laboratories to implement full digital workflows
Luca Ortensi, Marco Ortensi

11:20 am
The role of visual perception in harmonizing minimally invasive indirect restorations in our patients' faces
Luca Dalloca, Roberto Iafrate

12:30 pm
Planning: The core of prosthetic rehabilitations
Francesco Testa, Vincenzo Mutone

GIOVANNI ARTIOLI ROOM

THURSDAY, 14TH MAY

THE LATEST DEVELOPMENTS IN DENTAL AESTHETICS

3:00 - 5:00 pm
Best tips for ceramic veneer placement - *Roberto Iafrate*
